Exhibit B: Ordinance Showing Amendments

Summary:

The Weber County Building Inspection Division is requesting approval of the first reading of an ordinance amending Title 12 (Building Regulations and Site Permits) of the Weber County Code. The amendments focus on updating building code references to follow Utah State Code and updating building permit and related fees. The fee updates are intended to reflect appropriate building valuations and provide Weber County with the resources (including hiring one new employee in 2021) necessary to meet and exceed service levels mandated by the Utah State Code. Following is a brief summary of the ordinance amendments:

- The list of individual building codes has been removed and replaced with language that adopts the codes listed in Title 15A, Chapter 2, Sections 103 and 104 of the Utah Code. The County's code will now always follow the Utah Code as it is amended.
- The permit fee for a building valued between \$1 – \$2,000 was increased from \$47 to \$69.25.
- The latest edition of the building valuation data published by the International Code Council, by occupancy and type of construction, will continue to be used with the exception of finished basements. Finished basements will be valued at 50 percent of the building valuation data.
- Electrical fees (excluding solar installations) increased from \$47 to \$150. Plumbing and Mechanical fees increased from \$47 to \$100.
- Over the counter review fees increased from \$47 to \$115.
- Reinspection fees increased from \$47 to \$115.
- An investigation fee of \$100 per hour was added.
- An after hours inspection fee of \$125 was added (when made by request and approved by the Building Official).
- An administration and printing fee of \$25 plus the cost of materials was added.
